a div. of Canvas Works, Inc.

manufacturer of the finest custom-made aircraft covers

Tech Sheet: Douglas DC-3

2

Engine Covers are available in either standard or insulated designs.

The **DC-3 Engine Cover Set** is designed to enclose the engine cowling, all the way back to the trailing edge. The oil cooler and much of the belly remains exposed to allow oil to drip out. A Velcro closure splits the cover below the propeller shaft. The engine cover is available in a standard or insulated type.

Wing and Horizontal Stabilizer Covers are form-fit to slip over the wing tip and secure with straps under the wing. They are made of medium weight nylon, and come with a storage bag.

DC3 Engine Covers are custom made for various engine mod's.

CURRENT PRODUCTS LIST as of: January 21, 2009

Measuring for a Propellor Cover

INSTRUCTIONS: Print Form, Fill Out, Fax to 408/738-2729

Spinner and blade dimensions on propellers vary, even among similar models. Producing a well-made propellor cover depends upon the following measurements.

If you have any questions or problems, please call.

Please Check One:

2-Blade

3-Blade

4-Blade

- A _____ (measure along surface of cone)
- B _____ (measure "straight line" base to tip)
- C _____ (base to top of blade root opening)
- D _____ (provide diameter or circumference)
- E _____ (provide diameter or circumference)
- F _____ (blade root to prop tip)
- G _____ (trailing edge to leading edge)
- H _____ (trailing edge to leading edge)
- J _____ (trailing edge to leading edge)
