manufacturer of the finest custom-made aircraft covers

[Tech Sheet: Schreder HP-11](#)

[Canopy Cover for Schreder HP-11 \(similar to Grob 103 shown\)](#)

Canopy covers help reduce damage to your airplane's upholstery and avionics caused by excessive heat, and they can eliminate problems caused by leaky door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

Windshield and canopy covers are made of Silver Laminate. Bruce's Custom Covers developed Silver Laminate especially for aircraft protection. The outer material is a medium weight nylon treated for ultraviolet resistance and water repellency. The inner lining is brushed nylon tricot knit. Silver Laminate is extremely reflective. Tests show that the cabin interior temperature can be reduced by as much as 25 degrees. It is water, ice and snow repellent, yet it is breathable enough to allow moisture to escape from between the cover and the windshield surface. Silver Laminate contains no hydrocarbon compounds which can harm plexiglass windshields and acrylic finishes.

Schreder HP-11
