The T-50 Canopy/Nose Cover

The Canopy/Nose Cover encloses all of the canopy glass and extends forward to cover the nose as well. This cover features a special bungee cord hem which allows the cover to be completely adjustable for tightness and fit.

Each canopy cover is made of nylon Silver Laminate. Bruce's Custom Covers developed Silver Laminate especially for aircraft protection. The outer material is a medium weight nylon treated for ultraviolet resistance and anti-static buildup. The inner lining is brushed nylon tricot knit. Silver Laminate is extremely reflective. Tests show that the cabin interior temperature can be reduced by as much as 25 degrees. It is water, ice and snow repellent, yet it is breathable enough to allow moisture to escape from between the cover and the windshield surface. Silver Laminate contains no hydrocarbon compounds which can harm plexiglass windshields and acrylic finishes.
