

Tech Sheet: Fairchild Dornier 328 (jet engines)

(fairchild-dornier-FD328.pdf)

Section 2: Engine Covers

Tri-Fold Ring Engine Covers are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder in many cases. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight Solution-Dyed Polyester which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

The **Fairchild Dornier 328 (jet engines) Bikini Style Engine Covers** are a single-piece design using a soft and smooth stretchy and fabric. The cover stretches tightly over both the intake and exhaust, installing quickly and easily. These covers are designed to be used as hangar dust covers and have a useful life of approximately one year.

Citation S550 Complete Nacelle Cover, 3D model

Citation S550 Complete Nacelle Cover, 3D model

| Description | Part Number | Price |
|--|------------------|------------------|
| ENGINE COVERS, jet engines (set of 6) | FD328-100 | \$905.00 |
| NACELLE COVERS, jet engines, fully enclosed (set of 2) | FD328-110 | \$1250.00 |
| ENGINE COVERS, Hangar Use, Bikini Type (set of 2) | FD328-130 | \$745.00 |

Section 3: Plugs & Protection

The **Fairchild Dornier 328 (jet engines) Pitot Tube Covers**, made of Naugahyde vinyl, are designed to cover the entire pitot assembly. Slipping on over the tube, the cover tightens around the base with a special Velcro strap detail. A "remove before flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are designed to withstand more than 500 Å° Fahrenheit, and will prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on with the pitot cover attached.

| Description | Part Number | Price |
|--|------------------|-----------------|
| PITOT COVERS, heat resistant type (set of 3) | FD328-205 | \$190.00 |

Section 5: HeatShields & Sun Reflectors

Heatshield Interior Reflectors are made of a special laminate of metallized polyester film and closed cell foam. Less than 1/8" thick, the Reflector can fold up flat and store in a sleeve, yet is stiff enough when flat to stand up against the windshield using the sun visors and window framing only. On some designs no Velcro or suction cups are necessary. **Heatshields** are an excellent short-term remedy for cockpit overheating, but use the **Cockpit Cover** for more effective and practical long term protection.

| Description | Part Number | Price |
|-----------------------------------|------------------|-----------------|
| COCKPIT HEATSHIELD SET (set of 4) | FD328-900 | \$300.00 |

Prices subject to change. Other Covers and Design Alterations: Prices on request.

Prices are FOB Morgan Hill, CA. Sales tax on orders shipped to California addresses. Orders take approximately 3 weeks to complete. For domestic orders we normally ship by UPS ground service. Next day shipping and air parcel post is available on request. We can take payment by Visa, Mastercard, American Express, or Discover.
