

# Tech Sheet: Lockheed Jetstar II With 731 Engines

(lockheed-LJ2.pdf)

Intake, Exhaust and Windshield/Nose Covers

## Section 1: Canopy/Cockpit/Fuselage Covers

The **Lockheed Jetstar II With 731 Engines Cockpit/Nose Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

The **Lockheed Jetstar II With 731 Engines Cockpit/Nose Cover** is designed to cover the windshield and side windows of the cockpit. Attachment buckles are made of nonmetal *Delrin*, designed for rugged outdoor use. The windshield cover comes with a duffle bag. The N-number can be imprinted onto the cover for an extra charge. The windshield cover is trimmed in the colors of the aircraft.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.

Description	Part Number	Price
COCKPIT/NOSE COVER	<b>LJ2-000</b>	<b>\$1520.00</b>
COCKPIT COVER	<b>LJ2-001</b>	<b>\$1030.00</b>

## Section 2: Engine Covers

**Tri-Fold Ring Engine Covers** are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder in many cases. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffel bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight Solution-Dyed Polyester which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

ALL-YEAR USE MATERIAL - Made with Solution dyed Polyester fabric, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

The **Lockheed Jetstar II With 731 Engines Intake Covers** are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffel bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight nylon which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

Description	Part Number	Price
ENGINE COVERS (set of 6)	<b>LJ2-100</b>	<b>\$2345.00</b>
EXHAUST COVERS ONLY (set of 4)	<b>LJ2-102</b>	<b>\$865.00</b>
ENGINE NACELLE COVERS (set of 2)	<b>LJ2-105</b>	<b>\$3815.00</b>
INTAKE COVERS ONLY, newer pattern (set of 2)	<b>LJ2-106</b>	<b>\$1095.00</b>
EXHAUST COVERS, Inside Nozzle Only (set of 4)	<b>LJ2-107</b>	<b>\$285.00</b>

## Section 3: Plugs & Protection

The **Lockheed Jetstar II With 731 Engines Pitot Tube Covers**, made of Naugahyde vinyl, are designed to cover the entire pitot assembly. Slipping on over the tube, the cover tightens around the base with a special Velcro strap detail. A "remove before flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are designed to withstand more than 500 Å Fahrenheit, and will

prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on with the pitot cover attached.

Description	Part Number	Price
PITOT COVERS, heat resistant type (set of 4)	LJ2-122	\$425.00
ROSEMONT PROBE COVER	LJ2-125	\$80.00

## Section 5: HeatShields & Sun Reflectors

**Heatshield Interior Reflectors** are made of a special laminate of metallized polyester film and closed cell foam. Less than 1/8" thick, the Reflector can fold up flat and store in a sleeve, yet is stiff enough when flat to stand up against the windshield using the sun visors and window framing only. On some designs no Velcro or suction cups are necessary. **Heatshields** are an excellent short-term remedy for cockpit overheating, but use the **Cockpit Cover** for more effective and practical long term protection.

Description	Part Number	Price
WINDSHIELD & SKYLIGHT HEATSHIELDS (set of 4)	LJ2-900	\$370.00

## Section 7: Light Weight Products: Travel Covers and FlyAway Covers

The **Lockheed Jetstar II With 731 Engines Cockpit/Nose Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.
