

# Tech Sheet: Embraer ERJ-135/140/145 Legacy 650

(embraer-M135.pdf)

Grumman Gulfstream G-V Rosemont/TAT Cover

## Section 1: Canopy/Cockpit/Fuselage Covers

The **Embraer ERJ-135/140/145 Legacy 650 Cockpit Cover** helps reduce damage to the upholstery and avionics caused by excessive heat and can eliminate problems caused by leaking door and window seals. They keep the windshield and window surfaces clean and help prevent vandalism and theft.

The **Embraer ERJ-135/140/145 Legacy 650 Cockpit Cover** is designed to cover the windshield and side windows of the cockpit. Attachment buckles are made of nonmetal *Delrin*, designed for rugged outdoor use. The windshield cover comes with a duffle bag. The N-number can be imprinted onto the cover for an extra charge. The windshield cover is trimmed in the colors of the aircraft.

This cover type is made from Silver Acrylic Sunbrella canvas and is 100% lined with a soft and smooth microfiber. Bruce's Custom Covers developed this material combination especially for aircraft protection. The outer material is medium weight and treated for water resistance, UV resistance and anti-static buildup. The inner lining is a very soft and smooth microfiber to prevent scratching. The material is very reflective, and tests show that the cabin interior temperature can be reduced to near-ambient temperature on the hottest of days. It is water, ice and snow repellent, yet breathable to allow moisture to escape from between the cover and the aircraft surface.

COCKPIT COVER	<b>M135-000</b>	<b>\$890.00</b>

## Section 2: Engine Covers

The **Embraer ERJ-135/140/145 Legacy 650 Intake Covers** are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight nylon which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

**3-Strap Engine Covers** are designed to install easily yet be completely storable. These soft covers feature a strap across the top of the nacelle, and two tightening straps along each side of the nacelle belly. 3-Strap Covers are designed to be left-right interchangeable, and are intended for long term use out of doors. They are made of medium weight Solution-Dyed Polyester which is available in a variety of colors. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

**ALL-YEAR USE MATERIAL** - Made with Solution dyed Polyester fabric, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

The **Embraer ERJ-135/140/145 Legacy 650 Bikini Style Engine Covers** are a single-piece design using a soft and smooth stretchy fabric. The cover stretches tightly over both the intake and exhaust, installing quickly and easily. These covers are designed to be used as hangar dust covers and have a useful life of approximately one year.

Embraer Legacy 650 Intake Covers

Embraer ERJ-135 Engine Cover, Bikini Type

Description	Part Number	Price
INTAKE COVERS (set of 2)	<b>M135-100</b>	<b>\$935.00</b>
INTAKE/EXHAUST COVERS, 3-strap type (set of 4)	<b>M135-101</b>	<b>\$1130.00</b>
ENGINE COVERS, Hangar Use, Bikini Type (set of 2)	<b>M135-117</b>	<b>\$710.00</b>

## Section 3: Plugs & Protection

The **Engine Inlet Plugs** are custom fit for your Embraer ERJ-135/140/145 Legacy 650 intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Engine Exhaust Plugs** are custom fit for your Embraer ERJ-135/140/145 Legacy 650 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Exhaust plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are embroidered with the aircraft registration number in black. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Embraer ERJ-135/140/145 Legacy 650 Pitot Tube Covers**, made of Naugahyde vinyl, are designed to cover the entire pitot assembly. Slipping on over the tube, the cover tightens around the base with a special Velcro strap detail. A "remove before flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are designed to withstand more than 500 ° Fahrenheit, and will prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on with the pitot cover attached.

Embraer Legacy 500 Engine Exhaust Plug, folding type

Embraer Legacy Exhaust Plugs

Description	Part Number	Price
INTAKE PLUGS, folding type (set of 2)	<b>M135-110</b>	<b>\$1190.00</b>
INTAKE PLUGS, non-folding type (set of 2)	<b>M135-111</b>	<b>\$1015.00</b>

PITOT COVERS, TAT COVERS, ICE DETECTOR COVERS, heat resistant type (set of 9)	<b>M135-230</b>	<b>\$545.00</b>

## Section 5: HeatShields & Sun Reflectors

**Heatshield Interior Reflectors** are made of a special laminate of metallized polyester film and closed cell foam. Less than 1/8" thick, the Reflector can fold up flat and store in a sleeve, yet is stiff enough when flat to stand up against the windshield using the sun visors and window framing only. On some designs no Velcro or suction cups are necessary. **Heatshields** are an excellent short-term remedy for cockpit overheating, but use the **Cockpit Cover** for more effective and practical long term protection.

Description	Part Number	Price
COCKPIT HEATSHIELDS (set of 4)	<b>M135-900</b>	<b>\$410.00</b>

#### Section 6: Miscellaneous Products

Description	Part Number	Price
TIRE COVERS (set of 6)	<b>M135-125</b>	<b>\$615.00</b>
